The new JDS Cyclones are here! With a compact design, powerful motor, and efficient 1 micron filtering, these cyclones are perfect for any shop. The 3 HP Cyclone stands only 87" tall. Our unique "Turbo-Fan" Impeller design provides a class leading 1100 CFM at 12 inches of Static Pressure. This means the JDS Cyclones perform the best when used in a central system. The 2 HP Cyclone is only 6 feet tall, yet has a pulling power of 520 CFM at 12 inches of Static Pressure. This model is ideal for shops with a limited ceiling height. The JDS Cyclones are the ultimate in small shop dust collection. Compact size, Powerful performance, and quiet operation make these Cyclones the perfect choice for Discriminating woodworkers.

The JDS Cyclones have a one micron efficient canister to ensure that fine dust doesn't get back into the shop. The canister is equipped with a convenient cleaning wheel that keeps the canister working at its peak performance, for years.

Our exclusive collector basket holds a clear plastic bag which allows you to see the level of dust that has been collected, and also provides for quick and easy
